MOUND SITE IHSS 113 LOCKOUT/TAGOUT - AMT-028-97

Rocky Mountain Remediation Services (RMRS) L.L.C. has identified an underground water line in the vicinity of the Mound Project which supplies Domestic Cold Water to the east outer guard post. The line is physically within the area to be excavated as part of the IHSS 113 Mound Site remediation and will require lockout/tagout no later than 8:00 pm Thursday, March 20, 1997. The outage will be in effect for a period of 14 days. RMRS will provide portable toilet facilities at the east guard post until the lockout/tagout is removed on or before April 3, 1997.

We apologize for the late notice and any inconveniences this will have on your operations. If you have any questions please contact Wayne Sproles at extension 5790 or digital page 1245.

Thank you in advance for your cooperation and support in this matter.

Ann Tyson
Vice President
Environmental Restoration
